WHAT YOU NEED TO REMEMBER ABOUT STEALING

1. We can all experience envy when other people have things that we wish we had.
2. You may be tempted to take something that is not yours because you feel envy.
3. If this happens, you need to think about the fact that stealing people's things is hurtful and remind yourself that many people are happy to share what they have.
4. Asking if you can use or borrow something that someone else has is a good strategy for dealing with envy.
