

HOW TO CHANGE CONTENT LEVELS

1

Starting on the **Video Lesson** page, locate the drop down menu in the top right corner that says **Grade**.

The screenshot shows the MooZoom interface. At the top right, there is a 'Grade' dropdown menu currently set to 'Grade 2-4'. A red arrow points to this dropdown. Below the dropdown, there are two rows of video lesson cards. The first row is titled 'Difference' and has an 'Assigned' toggle. The second row is titled 'Healthy Relationships' and has an 'Unassigned' toggle. Each card includes a video thumbnail, a title, and a 'FREE' badge.

2

Click the **small arrow** to reveal the three different content levels.

Grade

Grade 2-4

Grade 5-6

Grade K1

3

Click the **content level** you would like to use for your students.
